

WORLD-CLASS SHEET METAL KNOW-HOW

LANKAPAJA
CORPORATION

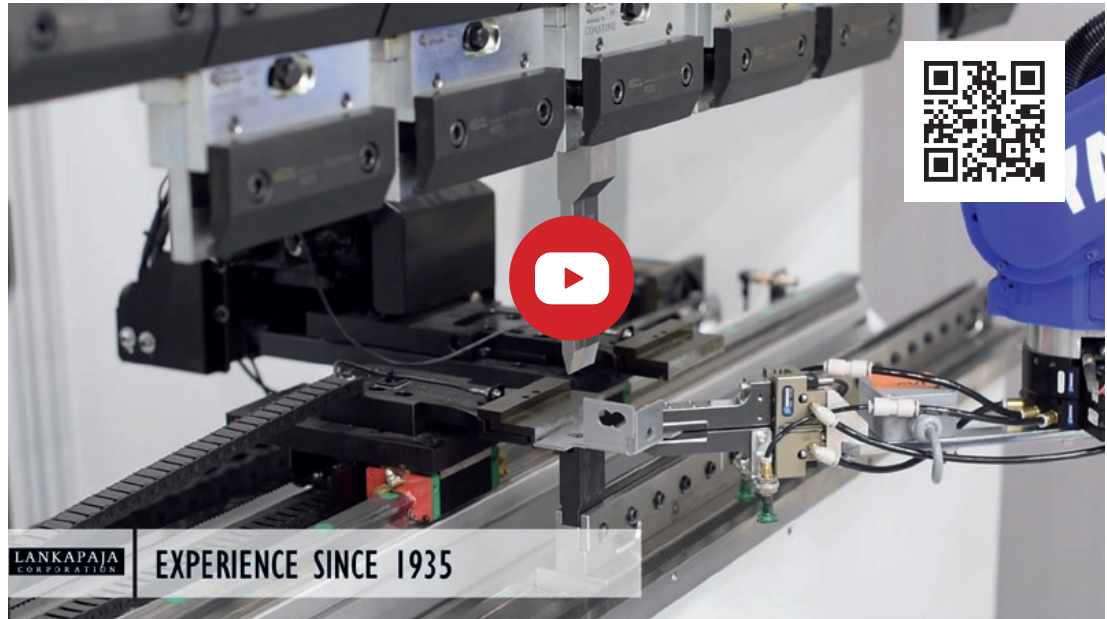

Reliable & inspiring **partner**

Lankapaja Corporation has been serving industry since 1935.

We are an experienced partner offering all subcontracting services from design and manufacture to warehousing and delivery under the same roof.

We understand just how a product should be made. When our customer succeeds, so do we. With this in mind, we always choose the most sensible and cost-effective solutions for the customer.

We are innovative and forward-looking. We take great pride in doing things that others find impossible. It's not rocket science – it just takes hard work and common sense.

Our main **processes**

Sheet metal components: punching, laser cutting, bending

Steel wire: components from steel wire from 2mm up to 13mm

Tube components: cutting, laser cutting, tube bending

Machining components: components from automatic lathes

Welding: hand welding, robot welding, projection welding

Powder Coating: 4 automatic lines

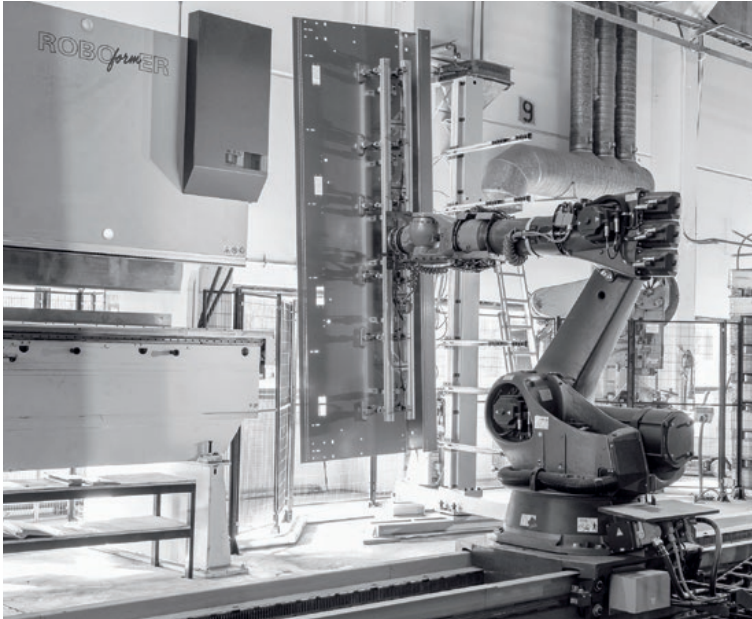

Assembling: finalizing and packing

Logistics: skilled logistic partner with buffer storages and own transport equipment

The leading castor manufacturer in the Nordic countries.

SMART MOVES ON MANNER CASTORS

One-stop-shopping

We are an experienced partner offering all subcontracting services from design and manufacture to warehousing and delivery under the same roof.

We understand just how a product should be made. When our customer succeeds, so do we. With this in mind, we always choose the most sensible and cost-effective solutions for the customer.

We take pride in producing top quality products. Our customers are responsible industrial players who all have their own quality specifications and requirements.

We never compromise on the quality requirements that our customers have set for our products and operations. We operate in accordance with the quality management systems ISO 9001 and 14001. As a proof of safe welding of railway applications we have EN 15085 and EN 1090 certificates.

EXAMPLES OF PRODUCTS WE MANUFACTURE

Shop fittings

- Shelves, baskets
- Prongs, hooks
- Display racks

Design and furniture

- Chair and table frames
- Room dividers

Lifting equipment

- Warehouse machinery
- Personal lifers

Logistics solutions

- Rolltainers for laundries and hotels
- Transport solutions
- Warehousing and accessories

Auto-mobility industry

Components for:

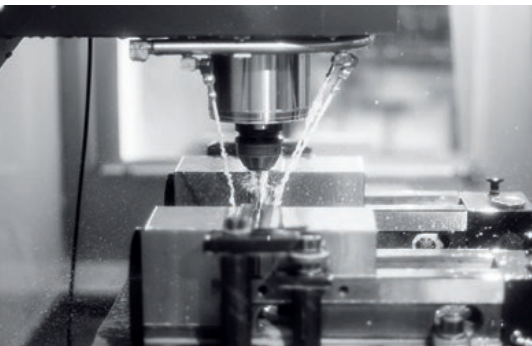

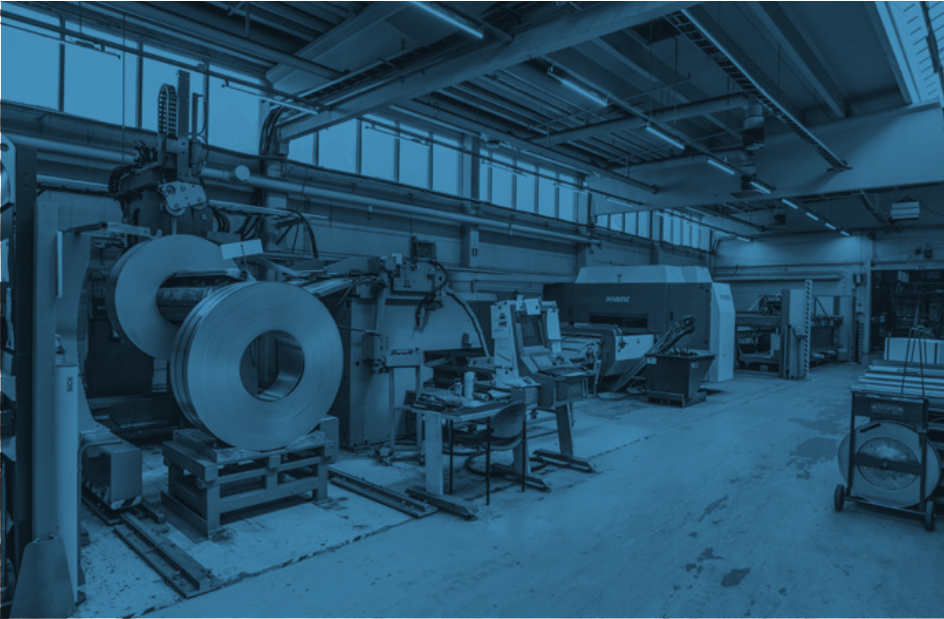

- Trucks
- Busses
- Trams
- Forest machines

Contract manufacturing

- Steel components
- Assemblies

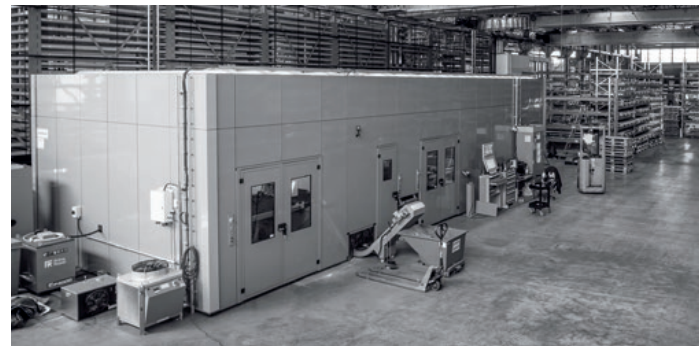

PaHu

All production under the same roof

Our manufacturing diversely covers
all areas of the metal industry.

Our subcontracting solutions cover everything from components to highly processed assemblies. Our machinery is the most versatile in the Scandinavia. We have 29,000 square meters of production facilities and hundreds of machines. Our manufacturing units include a wide variety of bending, turning, sawing, cutting, laser and punching lines as well as wire net making machines.

All services during the life cycle of the industry robots

Future investments

We are constantly investing in new methods and machinery to meet the needs of our customers.

Our new sheet metal warehouse system The Night Train FMS® production system automates the factory's material and information flow and combines the individual work steps into one flexible process.

By investing in our production every year, we remain at the forefront of technical development.

Cost-efficient solutions for masking and powder coating process

- Hooks and hanging systems
- Masking for flat surfaces, holes and axels
- Special solutions
- Powder coatings

Scandinavian capacity

From Scandinavia to the world.

Our production facilities are located in Nummela and Lahti in Finland. In Sweden we operate in Skillingaryd. Every day, we deliver 27 tons of sheet metal products across the world.

Our largest factory is located in Nummela, where most of our employees work. From Nummela, we have regular shipments to both Sweden and Lahti, so we are able to utilize our broad variety of machines at the Nummela facilities in our other factories, as well.

►► We have decades of experience of successful deliveries worldwide.

Nummela, Finland
