60 years of a mole's work
OSTROBOTHNIAN GROUNDWORKS

A versatile partner for decades

MRP Risberg Oy is a traditional groundworks company. Our office is located in Vaasa, but our operating area covers the whole of Ostrobothnia. Our customers include public sector as well as construction

companies and energy plants. We have long-standing experience in challenging construction projects, and we are a reliable partner regardless of the size of the project. Our experienced employees and com-

petent supervisors ensure that jobs are completed on schedule and in a cost-effective manner. With modern equipment, we guarantee punctual and fast supply deliveries.

CLOSE COLLABORATION GUARANTEES RESULTS

In addition to our own employees, we have a wide and well-established partner network, which allows us to offer our customers all the construction services they need under one roof.

CERTIFIED COMPETENCE

For years, we have been a company that provides proven high-quality services.

- 2007: RALA qualification
- 2010: RALA Certificate of Competence

Koneurakointi Teemu Hietanen Oy

Auneskyläntie 18, FI-39940 Kantti
koneurakointihietanen.fi

From a one-man company...

It all started in 1962 when Kauno Oskari Risberg founded a company that provided groundwork services. Over the years, the operations expanded to include other construction services. In the 1980s, Risberg's sons took over the company.

... TO A WELL-KNOWN OPERATOR

In 2015, the ownership base of the company changed again. MRP Risberg Oy, in its current form, employs dozens of employees: in addition to supervisors, our ranks include

groundwork professionals, machine drivers and installers. Our partner network has expanded to cover a wide range of experts in different fields. Our annual turnover is almost EUR 10 million.

From left to right, MRP Risberg's current owners Harri Granqvist (construction projects), Ari Mäkelä (financial administration) and Peter Linna (equipment).

Our equipment has also increased over the years and now includes about 20 different types of machinery. Our equipment includes excavators, trucks, loaders and other spe-

It is important to us that our employees have extensive and modern ma-

chinery at their disposal. Up-to-date equipment guarantees a high-quality and cost-effective end result, which both we and the customer can be satisfied with.

60 years of a mole's work

1962

Kauno Oskari Risberg establishes the groundworks company K.O. Risberg.

1988

Kauno's sons Pentti, Kari and Kai take over the company. The name of the company is changed to Veljekset Risberg Oy. There are approximately 10 employees.

2006

The company's operations are transformed into a group of companies. MRP Risberg Oy is responsible for the group's groundwork projects. Other companies operate in industries such as quarrying, construction aggregate production and geothermal work.

GROUNDWORKS MASCOT

Our fun mole mascot is familiar to many from our logo and construction sites, where it is visible on the sides of our machines and cars. Our work mole has been digging soil with a tireless and positive attitude for decades.

2015

The Risberg brothers sell the groundworks business to the company's management at the time. Business operations continue and expand. Today, the company is run by Harri Granqvist, Ari Mäkelä and Peter Linna.

2022

The company turns 60 years old.

Comprehensive services

By contacting us, the customer can focus on their core competencies — we take care of everything else. We always offer a comprehensive solution that suits the customer's needs, and the customer does not have to look for individual employees elsewhere.

Groundworking is our core business. In addition, we carry out diverse concrete, foundation and steel construction work. We also have a lot of experience in various public sector engineering projects.

Our company comes from Vaasa, but we operate all over the Ostrobothnia region, sometimes even further. We have built substations throughout Finland.

All construction work under one roof, flexibly and planned in advance.

CONFIDENT PROJECT MANAGEMENT

When a big and challenging job includes several smaller entities, it is important that the project organisation ties the whole thing together.

We always offer versatile project management and work supervision

services as part of the package deal construction contracts. Our experienced supervisors and managers ensure that the job is completed on schedule in a cost-effective manner.

Civil engineering

Expertise in civil engineering and infrastructure construction is also our speciality. Over the years, we have served public sector in Ostrobothnia. In civil engineering, we utilise our di-

verse partner network to provide our customers with the most versatile services possible.

- Sewerage and water supply work
- Electricity and telecommunications connections
- Road work
- Garden construction and landscaping
- Stonework and asphaltting
- Lighting work

Towards new challenges

In the future, we aim to offer our customers even more diverse construction services, and are willing to expand geographically as well as into new industries.

We are constantly looking for motivated and skilled employees who

are willing to take on challenges and learn on the job.

With us, you can work in a wide variety of groundwork and transport tasks. We offer our employees a close and supportive work community. We have modern and safe equip-

ment at our disposal, and we appreciate smooth cooperation both within the company and with our partners.
