Paikalliset energiaratkaisut tuovat kunnille elinvoimaa

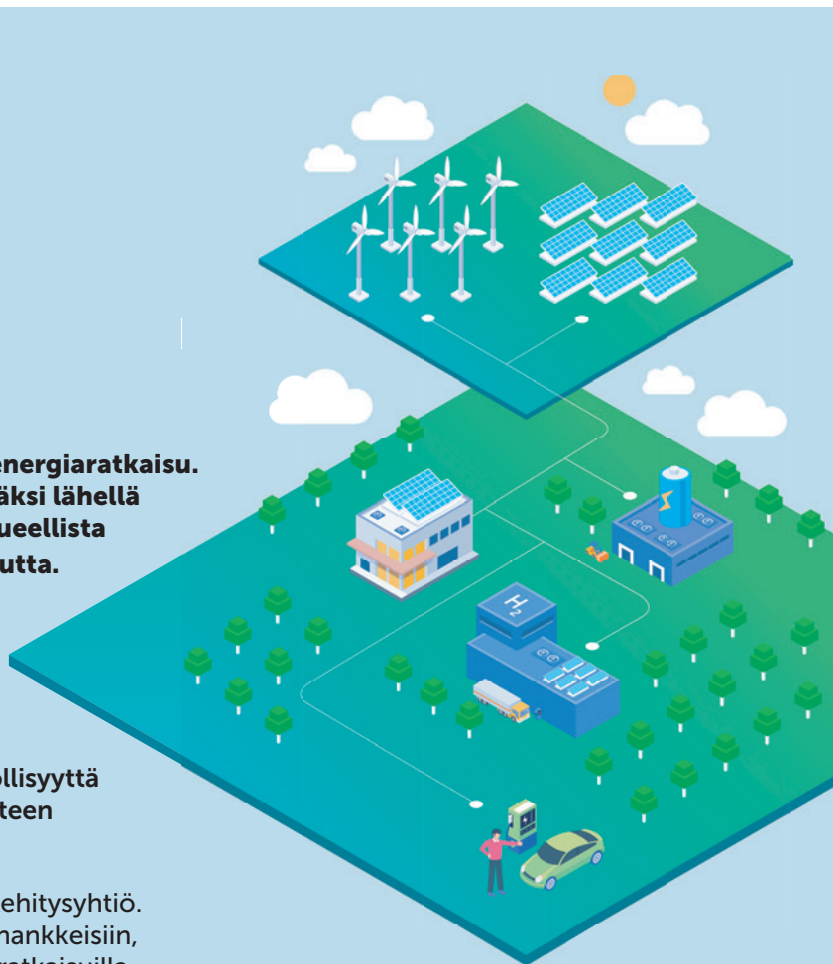

Vierivoima® on Skarta Energyn kehittämä paikallinen energiaratkaisu. Vierivoima® tuo kunnille elinvoimaa ja verohyötyjä. Lisäksi lähellä tuotettu energia tasapainottaa kantaverkkoa ja lisää alueellista riippumattomuutta parantaen kotimaista huoltovarmuutta.

Vierivoiman avulla:

- siirrytään kohti hiilineutraalia toimintaympäristöä
- lisätään alueellista ja valtakunnallista energiaomavaraisuutta ja huoltovarmuutta
- kehitetään alueellista yritystoimintaa ja parannetaan työllisyyttä
- tuotetaan vakaata ja edullista sähköä pitkälle tulevaisuuteen
- valmistaudutaan tulevaisuuden vety-yhteiskuntaan

Skarta Energy on kotimainen, uusiutuvan energian hankekehitysyhtiö. Skarta Energyn hankekehitys on keskittynyt aurinkovoimahankkeisiin, joita voidaan täydentää tuulivoiman rakentamisella ja vetyratkaisuilla.

WELCOME TO PYHÄJÄRVI!

Pyhäjärvi is an ideal place to live and run a business!

The town of Pyhäjärvi (St. Lake in English) is being developed with an active focus on accessibility, functional infrastructure and strong expertise. Here we work together for a common goal - regional cooperation and interaction are of great importance from the point of view of both a vibrant economy and the well-being of the residents.

In Pyhäjärvi, you live near clean waters in the heart of three significant growth centers. Oulu, Jyväskylä and Kuopio are

only a couple of hours' drive away, and besides one's own car, the journey can easily be made by train or bus. Combining work and free time is easy here - a fast fiber optic connection brings access to study and work opportunities – regardless of where they are. Housing costs are affordable, basic services are well taken care of and there is plenty to do for one's leisure time.

Welcome to visit and be enchanted!

A town located in a remote part of the province of Northern Ostrobothnia

The area is 1 459 km², of which 148 km² waterways

Population almost 5 000 – come join us!

Everything is close to us! Oulu 160 km, Kuopio 150 km, Jyväskylä 180 km, Ylivieska 95 km, Iisalmi 68 km.

 **THE BEST PLACE
TO LIVE!**

Pyhäjärvi takes good care of residents of all ages. A free early childhood education place is organized for the youngest in the family, after which the journey continues to the school path. Learning can continue in the town all the way to high school. Thanks to the central location, provision of secondary education by the neighboring municipalities is also nearby - just like the jobs.

Although commuting is familiar here, everything needed for everyday life can be found from the town. The wellbeing services county of Northern Ostrobothnia, Pohde, takes care of health services, and the town has its own health center. Plenty of commercial services are also available. Spending one's whole life here is safe and comfortable.

THE ENCHANTING NATURE OF PYHÄJÄRVI!

Pyhäjärvi is the southernmost authentic winter
locality in Finland.

In Pyhäjärvi, winter is winter and summer is summer. Nature lovers will find a wonderful setting for outdoor activities and recreation in Pyhäjärvi in all seasons. Nature experiences can be caught, for example, on our ski slopes, Pyhäjärvi boat routes with landing spots, and on our nature trails, of which especially the Vitikkamäki nature trail is also popular among vacationers.

The sandy beach of Emolahti is child-friendly, and the wonderful lake scenery can also be enjoyed on summer cruises. Our lake is not only beautiful but also full of fish, and fishing is in fact a popular pastime here. Our wonderful nature also serves mushroom and berry pickers!

COME TO RUN BUSINESS!

We want to be the most entrepreneur-friendly town in Finland!

In addition to good transport connections, Pyhäjärvi offers entrepreneurs many other interests to settle here. The availability of raw materials is good. In addition, network services that support entrepreneurs create an excellent framework for business operations and development.

The town's business development offers investment advice and facility management, opportunities for development projects, evaluation and testing of business ideas, help with business planning, and regional cooperation.

Pyhäsalmi mine is one of the deepest places in Europe: it extends 1,445 meters below the surface of the ground. After the end of mining, Pyhäjärvi Callio, a globally unique, multidisciplinary operating environment, will operate on the site. www.callio.info

Pyhäjärven Kehitys Ltd promotes the vitality of the municipality and the operating environment of the companies operating here. In cooperation with Nihak ry and by utilizing various public financial products, we aim to improve the operating conditions of companies,

develop employment and competence, and improve Pyhäjärvi's competitiveness, vitality and attractiveness. Adapting to structural change, developing energy sectors and bio-based valuables, as well as creating new businesses and jobs are our priority areas . **Ask for more!**

Nykyaikainen, toimintavarma nettiyhteys on joka kodin perusedellytys

Valokuituyhtiö PyhäNet Oy tarjoaa modernit laajakaistapalvelut valokuituverkkoon Pyhäjärven, Haapajärven, Kärsämäen ja Reisjärven alueella. Toimitusjohtaja Eetu Pekola kertoo, että verkon kattavuus on laaja ja liittymätiheys hyvä.

– Valokuitu on osa nykypäivän infrastruktuuria siinä missä vesi- tai sähköliittymäkin.

Valokuitu on sijoitus pitkälle tulevaisuuteen. Sen käyttöikä on vähintään 50 vuotta ja teknologia saadaan päivitettyä vain päätelaitteita vaihtamalla. Paikallisen toimijan asiakaspalvelu on joustavaa ja mutkatonta.

– Opastamme esimerkiksi oikean laajakaistapalvelun valinnassa ja tarvittaessa autamme myös käyttöönoton vaiheissa, lupaa Pekola.

Valokuidun hyödyt

- ✓ Nopein internetyhteys
- ✓ Suorituskykyisin
- ✓ Luotettavin
- ✓ Ruuhkaton
- ✓ Aikaa kestävä ratkaisu
- ✓ Täyttää tulevaisuudenkin tarpeet

Sijoitus valokuituun on maksanut itsensä jo takaisin

Muutama vuosi sitten valokuituliittymän hankkineet Minna ja Veijo Kontro ovat tyytyväisiä päätökseensä.

– Se oli kyllä investointi, joka olisi pitänyt tehdä jo vuosia sitten, Minna sanoo.

Koko perheen käyttäessä nettiä useilla eri laitteilla yhteyden täytyy olla luotettava ja tehokas.

– Vaihdettiin valokuituun juuri sen takia, koska meillä oli aikaisemmin mobiilireititin, joka ei riittänyt, Veijo jatkaa vaimonsa sanomaa.

Valokuitua voidaan kyllä ihan rehellisesti suositella kenelle vaan, Kontrot sanovat yhdessä tuumin.
