

BETTER WITH BET-KER.

Established in 1977 by two pioneers from Ylivieska, Bet-Ker has become a cornerstone of Finland's refractory industry. What began as a small operation focused on recycling refractory bricks has evolved into a leading provider of innovative solutions for high-temperature processes. Through five decades of expertise, Bet-Ker has proven that sustainability and reliability can go hand in hand.

WE BELIEVE IN PEOPLE

Bet-Ker believes that satisfied and happy people are key to the success. This is why we invest heavily in people's well-being. This commitment has cultivated a strong team of over 30 dedicated employees and a positive work culture that endures to this day.

YOUR TRUSTED PARTNER

Bet-Ker is proud to offer the best possible delivery in terms of quality, timing and costs. With a hands-on approach and technical support provided directly at our key customers' sites, we are more than just a supplier – we are a trusted partner.

OUR EXPERTISE IS AT YOUR SERVICE

We offer on-site technical support to our key customers. With operations based in the Nordics and customer service available in Finnish, Swedish, and English, we are committed to being close to our customers - both geographically and in every aspect of its service.

SPEED AND RELIABILITY YOU CAN COUNT ON

We stand out with the fastest delivery times in the Nordic countries with orders reaching customers' factories within 1-4 weeks. Speed and reliability allow clients to focus on their core operations without delays.

HIGH-QUALITY PRODUCTS

Our main products are refractory materials and precast shapes required in steel industry processes. The products are designed and made by Bet-Ker Oy used with molten

metal and slag, which expose the products to heavy thermal, chemical and mechanical stress. All our products can be customized customers' needs and requirements.

MIXES:

- ✓ Tundish wear lining and back lining
- ✓ Steel ladle wear lining
- ✓ Vibratable and self flowing castables
- ✓ Ladle backfill
- ✓ Repairing mixes
- ✓ Mortars
- ✓ Gunning materials

PRECAST:

- ✓ EAF deltas
- ✓ Ladle bottom elements
- ✓ Tundish furniture
- ✓ CAS-OB bells
- ✓ Tundish lids
- ✓ Tangle elements
- ✓ You name it, we do it

50 YEARS OF INNOVATION

With 50 years of experience and ongoing development, we ensure the strength of our products and services. Every product is developed in our own laboratory by a ded-

icated team that handles both innovation and quality assurance. We also collaborate with universities to stay at the forefront of refractory material advancements.

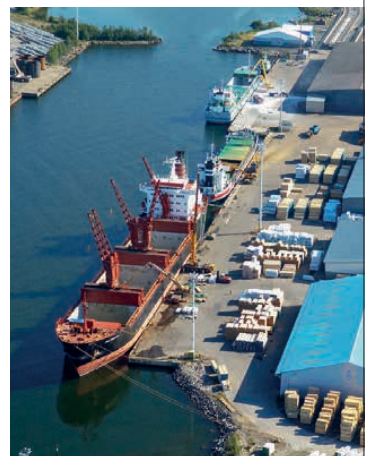

PIONEERS IN REFRACTORY RECYCLING

Sustainability has been at the core of Bet-Ker's philosophy from the start. We have led the way in recycling refractory materials, with 25% of our raw materials now sourced from recycled content. We constantly seek new recycling opportunities by using cus-

tomers' refractory waste and by producing products made from recycled components. This commitment helps us lower our carbon footprint and support a more sustainable future.
