## At the centre of it all

Kihniö is a vibrant municipality with more than 1,800 inhabitants on the northwestern border of Pirkanmaa County. We are located in a convenient place for both work and business - from the nearby Parkano railway station, the journey to Tampere takes only about half an hour, and Helsinki can also be reached in about two hours.

It is safe to live in Kihniö, and nature is always close here. There are plenty of quality rental apartments and vacant plots to build your own house, and our basic services are top-notch in the country. We are also known for our entrepreneurial attitude.

**Welcome to Kihniö!**

**Kihniö has several gorgeous nature attractions where both locals and tourists can enjoy themselves. The Lauhanvuori-Hämeen kangas area is part of the UNESCO Global Geopark network.**

# Homes for families of all sizes

In Kihniö, you can easily find a home for yourself and your family. We offer for rent well-maintained, renovated studios, one-bedroom and two-bedroom apartments located in terraced houses across the town centre. For those planning to build a detached house, there are plots of land both in the urban area and in the verdant lake landscapes. Some plots zoned for terraced house construction are also available.

You can inquire about **vacant rental apartments from** financial and administrative director Kristiina Mäkelä

## High-quality and supportive care and teaching

In Kihniö, children and adolescents are able to go through their entire study path from day-care center to the end of primary school at the same address. Kihniö comprehensive school and Kettukallio kindergarten are located in the center of the municipality in a building completed in 2013. Modern and healthy facilities and a safe and supportive learning environment support balanced growth and learning.

A library serving all residents is located in the same courtyard as the school and the day-care center, and the fenced yard has excellent opportunities for sports, play and other outdoor activities. There are also several playgrounds near the building of the school and day-care center.

# Rapid access to treatment

Health and wellness services in Kihniö are exceptionally functional and comprehensive. Treatment can here always be received quickly. Health services have been arranged in co-operation with the Pihlajalinna Group. There are two doctors in our municipality, and in addition to remote connections, you can meet the doctor face to face.

The municipality of Kihniö provides its own medical, dental and oral hygiene services as well as prenatal care services. Special medical care services and a private hospital are also available to residents at public service rates.

## STRAIGHT TO THE DOCTOR

**AT KOLMOSTIEN TERVEYS, YOU GET A DOCTOR'S APPOINTMENT ON YOUR SMART PHONE WITHOUT WAITING.**

You can get help with all the most common illnesses and complaints and get your prescriptions renewed. The appointment always starts with an assessment of your healthcare needs. A remote appointment costs the same as an appointment at the health centre.

# Entrepreneurship and work as lifestyle

Kihniö's favourable location and business-friendly attitude offer excellent opportunities for both established and start-up companies. The number of business plots has been increased, and the municipality's business company Kehitys-Parkki provides extensive support to entrepreneurs at various stages of operation.

There are plenty of job vacancies in our municipality. Especially the metal and wood industries, as well as the social and health sectors, are in constant need of new labour force. Improvement of teleworking opportunities, currently receiving significant investments, is also an important development target in Kihniö.

## Good housing for the elderly

Home care for the elderly is comprehensively and well organized in Kihniö. The aim is to support the living of elderly people at home for as long as possible. Assisted living accommodation is also available at the stage when living in own home is no longer possible even with the help of services. In enhanced service housing, staff are present 24 hours a day.

The pearl of assisted living accommodation is Suutarin Pihlaja, which was opened in 2017 in the town centre as a 30-bed unit offering enhanced service housing. Suutarin Pihlaja is located near the health center, which among other services also has a swimming pool for rehabilitation.

# Refreshing leisure time

In Kihniö, leisure time can be spent both in nature's peace and quiet and with active hobbies. We invest in diverse sports opportunities for people of all ages, and our municipality also offers interesting activities for those endearing culture and handicrafts.

Construction of a new local sports venue will begin in 2021. There will be an ice-hockey and small games rink, a skate park and outdoor sports equipment in the area. In addition, artificial turf will be installed in the middle part of the adjacent sports field.
