Metallityö Vainio corporation

**A strong machine  
engineering  
manufacturer  
at your service.**

**METALLITYÖ VAINIO -CORPORATION**

is a solid, developing, and agile professional in the machine engineering industry. Our purpose is to assist our clients in succeeding in their own businesses. We are known as a service-oriented, cooperative, and reliable contract manufacturer in the metal and construction industry.

**We are a skilled partner**, with over thirty years of tradition as a contract manufacturer. Our agile size allows us to quickly respond to customer needs as well as deliver substantial and demanding assemblies. We are strongly networked and accustomed to serving large, international clients. We cherish long-term partnerships with all our stakeholders.

**Our operations are quality and environmentally certified.** Our modern machinery and our staff's solid expertise ensure the high quality of our manufacturing. Continuous, efficient quality monitoring, close production cooperation with customers, and purposeful automation ensure that the final result always meets the customer's expectations.

We would be pleased to serve also your company.
