Visit Nivala!

Nivala is a vibrant and lively town of approximately 11,000 residents located in Northern Ostrobothnia on the bank of the famous Kalajoki river.

Education opportunities, research and development activities and entrepreneurship create the prerequisites for studying, research and working in Nivala. Many companies operating here constantly require new experts in order to grow.

In addition to job opportunities, the town offers its residents an environment in the heart of nature, good services and versatile leisure activities.

Nivala is waiting for you. We welcome you to join us!

Working in Nivala

Would you like a competitive environment for your business and to carry out pleasant work and constantly develop your expertise? Visit Nivala! Here, challenges become opportunities.

Strong expertise areas are, for example, the metal and construction industry, high-tech and agriculture. Many large companies taking their expertise to the world also operate here.

Successful companies create new business and jobs. We constantly have job openings for experts in many fields. There are also opportunities for people switching fields because companies train new employees together with the local vocational school.

Entrepreneur-friendly town

Nivala supports companies in many ways and reacts to their needs quickly. The town zones and issues permits for projects quickly. Nivala's Industrial Park builds office spaces to order and leases them to companies.

The Industrial Park also realises various projects related to the development of economic life. An important partner in this development is the Kerttu Saalasti Institute (at the university of Oulu) whose objective is to further the diversification and competitiveness of economic life in the area.
